The World's Greatest Musicians Are On Stage ... As Your Backup..

With Midi Hits, it's not so outrageous as it may sound. We've captured the feel, the punch, the notes, and the expressions of many of the most famous musicians that have ever stepped on a stage. Many of the greatest performances in the history of show business have been arranged to be **YOUR** back up. No one, but you, has to know who's really backing you up. Your audiences will be stunned, with mouths wide open, begging for more, and more...and you'll be able to deliver, because the work has already been done for **YOU**.

There's only one company that puts this kind of effort and this kind of energy into each premium-backing track...but **YOU'LL** get the credit, the applause, and standing ovations. You're just a step away from putting this dream of a lifetime into a reality.

Fully Orchestrated

It's all there...from piano, guitars, bass, strings, brass, woodwinds and drums, bells and whistles. Whatever we feel it takes to create rich premium-sounding backing tracks that your listeners will request over and over. Midi Hits are designed for professionals and amateurs of all ages.

DOWNLOAD & BURN YOUR OWN CD'S

In addition to the midi format, you may also download selected tracks in MP3 format which comes minus the melody and in the Key of the original recording. Once you download these tracks, you may burn them onto a CD for performance.

Yes...The Melodies

Most Midi Hits contain melody (vocal) lines (midi file formats) to help you learn the backing track as quickly as possible. Several also include backup vocal lines as well. Send these tracks to your harmonizing module and get full harmonies. These vocal

lines are automatically eliminated for customers ordering Audio CDs and MP3s.

Additionally, many of the tracks in midi format come with embedded synchronized lyrics. To find out which ones.. go online to www.midi-hits.com. Any title that shows in **maroon color** indicates embedded synchronized lyrics.

When you purchase a Midi Hit, you are actually purchasing a license to perform the specific backing track. You may not reproduce a Midi Hit for distribution (including making a copy for a friend, or competitor), uploading on the Internet, sending a copy through email, or use them as backing music for a recording you plan to distribute.

If you wish to use a Midi Hit for background music on a recording that you plan to distribute on tape or CD, you must first obtain a mechanical license from the publisher. Next you will need a distribution license from Midi Hits to use our copyrighted arrangement.

The Midi Hits web site is your place to keep up-to-date with all the latest releases. There you'll find new releases posted each week. Additionally, there are separate links to hits you're hearing on the radio today in the categories of Top 40 and Country. You'll also find a link to our top selling songs. The web site also features a secured ordering. Just check the songs and it falls into your shopping cart. You'll also have the ability to search by song title, by recording artist, by music style or by today's charts.

Not all backing tracks are equal. If you are a professional musician, your livelihood is on the line each time you step on stage. Midi Hits is your partner...and we want you to sound good. That's why we put between 25-45 hours into each production. You deserve the best

Throughout the catalog, you'll see references to recording artist. This is to give you an idea of which arrangement we have followed in our production. In no way, does this reference mean that the artist has participated in our production in any form.

Want to test the Midi Hits quality? Just cruise over to the Midi Hits Web Site (www.midi-hits.com). There you can listen to samples **free** of charge.

MP3 Backing Tracks

Many of our backing tracks are available in MP3 format. This is an audio format which you can download directly into your computer from the Midi Hits website. Once you download the tracks, you may either burn your own CD with these ready-to-burn MP3s, or load them into your MP3 player, or record to your midi disc player or cassette player.

Either way, you'll be rewarded with rich, hot tracks that will get you noticed.

Order Directly On The Internet

Just point your browser at www.midi-hits.com. You'll be able to search by Artist, Title, and even Music Style.

Most midi tracks are \$8.99; however, everyday there is a promotion going on. See the website's moving billboards for the current running promotion.

...and MP3 on sale for just \$1.49 each
